

## TECHNICAL SHEET

### PERFORMANCE AND DIMENSIONS

#### Main features

Double pantograph geometric platform, with the widest outreach without limiting devices in its category. Electrically isolated up to 46kV, it allows it to work safely on or near high voltage lines. With its 75,4 ft of working height, its three areas of stabilization, the automatic leveling of the stabilizers, is able to operate at its best in any condition.

Max. working height	<b>74,8</b>
Max. outreach with 396,8 lbs	<b>32,8 ft</b>
Max. load in basket	<b>396,8 lbs</b>
Basket dimensions	<b>1,96 x 1,96 x 3,6 ft</b>
Basket rotation	<b>+90°</b>
Turret rotation	<b>+/- 200° (400° continuous)</b>
Total weight	<b>8664,1 lbs</b>
